

# SOLID GASKET SOFT IRON

Soft iron gaskets are made out of low carbon steel and are often used in both high temperature and pressure applications. With a maximum service temperature of 400°C, good weldability and excellent sealing function its widely used in the petrochemical industry.

## HIGHLIGHTS

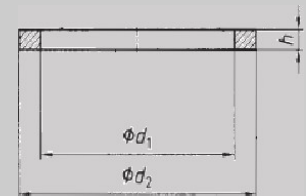

1. Suitable for standard and non-standard applications.

### Technical Features

EN: 10139  
 DIN: 1624 St.4  
 Other: DC04  
 Material No: 1.0338  
 Tolerance: According to DIN 7603A/D  
 Hardness: Max 100HB  
 Certificate: -Hardness Report  
 -EN10204 2.2  
 -EN10204 3.1+MTC

### Type A Flat Gasket

### Type D O Ring
